**Bossa is a global company with offices in the United States, Japan, Singapore and Europe.**

## **/02** Bossa Technology - Advantages

# Smart Trading Tools

Bossa is a tool that provides users with automated quantitative trading and financial management through intelligent AI quantitative trading in the virtual currency market. Bossa Technologies' main headquarters is in the United States, and the group has extensive research experience in quantitative private equity and artificial intelligence technologies, and the platform currently supports major trading platforms such as Binance-cionbase-okx

Covering hundreds of coins such as BTC, ETH, LTC, BNB, DOT, EOS, etc. trading in different digital currency exchanges and automatic carry trade in different digital exchanges through one-click API configuration strategy has a more complete professional risk control system to ensure the continuous implementation of AI automated strategies to ensure that users enjoy stable investment and financial management

# 10 advantages of Bossa intelligent financial system

## 1. API binding

It connects API, Huobi and Binance currencies together, the principal and income are in the relevant foreign exchange account, and the funds are safe and guaranteed for you.

## 2: Martin's strategy

Martin's improved dual investment strategy, personal parameter setting, one-click multi-functional batch configuration strategy, excellent intelligent profit monitoring and margin filling skills

## 3: Multilingual

English, German, Greek. 24 hours online customer service

## 4: Deposit and withdrawal

support bank transfer, USDT, credit card. Withdraw funds to the account in seconds, and inter-bank withdrawal only takes 48 hours

## 5: Synchronous transactions

H5 is suitable for low APP, high width support, highly competitive internal optimization transaction system and batch operation of Bossa business.

## 6: Vote for listing

focus on the current quantitative professional market analysis, select the top 50 asset values, user voting, coin industry

## 7: Win-win situation

Customers will only charge service fees if they are profitable, otherwise they will not charge commission.

## 8: Actual data

Use real data for transactions, continuously build products and systems, analyze and optimize correct trading strategies

## 9: High-quality community

Everyone can communicate directly in the group, learn high-quality quantitative strategy experience and increase quantitative profitability.

## 10: Professional skills

Self-operated senior technical team for trading system development, system maintenance, upgrades and repairs

# Advantages of Bossa robot

1: Overcome the weakness of human nature, not greedy or fearful, strictly disciplined, implement strict investment strategies, and not be affected by changes in investor and external sentiments!

2: Systematic model: multi-level quantitative model, multi-angle observation, large-scale data processing, combined with big data processing technology, to capture more investment opportunities. Timely, fast and accurate tracking of market changes, constantly discovering new statistical models that can provide excess returns, looking for new trading opportunities, and ensuring accurate orders!

3: It has hematopoietic function! What you earn is the price difference of mainstream currencies in all countries in the world! Profit is reasonable and legal!

4: Free your hands, you don't have to stare at the computer or mobile phone every day, you can play perfectly while lying down! Because it's so easy! Don't worry about it yourself, leave everything to the Bossa robot to help you!

# How the Bossa robot works

Bossa Technology is a popular European product combining artificial intelligence and traditional finance! Data analysis based on artificial intelligence automation algorithm and super intelligent system platform

As shown in the picture:

there will be a certain price difference between BTC/USDT traded on Binance and HUOBI platforms at the same time!

The Bossa robot can quickly capture the middle point difference, and automatically open the quantitative trading mode to buy low and sell high to make a profit!

This is beyond the reach of individual traders. Only available through the Bossa Smart System!

# /03 Bossa Technology-Application

The world can expand infinitely, and mobile phones can start to make money

-Pave the way for entrepreneurship and finance with 75 usdt

-bossa company has 6 different levels of intelligent robots, the higher the level, the higher the income.

-Any robot that activates bossa can get long-term stable income

-Activation amount fees can be refunded and withdrawn at any time

The graphic features the Bossa logo (a white robot head) and the text "Bossa Robot Price Earnings" in green. To the right, several smartphone screens display the app's interface. At the bottom, there are illustrations of stacks of US dollar bills and gold coins.

ROBOT TYPE	NO.0	NO.1	NO.2	NO.3	NO.4	NO.5
Robot Price	\$0	\$5	\$20	\$60	\$200	\$600
Activation Amount	\$30	\$70	\$300	\$1000	\$3000	\$10000
Total amount	\$0	\$75	\$320	\$1060	\$3200	\$10600
Daily Income	\$0.18-\$0.21	\$0.7-\$0.8	\$3.09-\$3.41	\$10.6-12.36	\$34.13-38.4	\$116.6-130.73

# Agent advantage

Your member activates any robot No. 1-5 for the first time, and can get a robot for free

## ROBOT REWARDS

The direct subordinates activate the robot for the first time and get the corresponding robot rewards if they meet the activity rules

Example: A invites B  
B Activate robot No.1 for the first time (70 USDT)  
A will receive a robot 1

ACTIVATE THE ROBOT	REWARD SUPERIORS
NO.1	1 NO.1
NO.2	1 NO.2
NO.3	3 NO.2
NO.4	5 NO.2
NO.5	2 NO.3

## CASHBACK REWARDS FOR ROBOT PURCHASES :

When the direct subordinates recharge for the first time to buy a robot, the superior will get a 20% cashback of the robot price, which will be directly returned to the account wallet balance of the superior. For example: A invites B, and B spends 20 USDT on recharging to purchase a robot, and A can get  $20 \times 20\% = 4$  USDT cashback

Note: This activity is only limited to direct subordinates who recharge for the first time to purchase robots. If C recharges to purchase robots, only B can get cashback rewards, and A cannot get rewards

# team development

- Invite friends and relatives to join your team and get a steady percentage
- Everyone Can Build Their Own Team
- Everyone can get a percentage of 3 levels
- The bigger the team, the higher your income
- Even if you get a percentage of a lower level member, there will be no reduction in that member's income
- A person's static income is limited, but a team's dynamic income is unlimited!

**Bossa**

## TEAM DEVELOPMENT LEVEL

**A=yourself**  
**A invites B (B is a subordinate of A)**  
**B invites C (C is a subordinate of B)**  
**C invites D (D is a subordinate of C)**

There is no limit to the number of subordinates that A can invite (B1, B2, B3, B4, B5, B6...)  
 There is no limit to the number of subordinates that B (B1, B2, B3...) can invite (C1, C2, C3, C4, C5, C6...)  
 C.....  
 D.....

**Bossa**

## TEAM COMMISSION INCOME RATIO

AGENT LEVEL	GET THE COMMISSION RATIO(%)	NEXT LEVEL DAILY EARNINGS	AGENT GETS COMMISSION
LEVEL 1	12%	100 USD	12 USD
LEVEL 2	6%	100 USD	6 USD
LEVEL 3	3%	100 USD	3 USD

**Example: A invites B, B invites C, C invites D**

A gets B's proxy percentage: 12%  
 A gets C's proxy percentage: 6%  
 A gets D's proxy percentage: 3%

**B, C, D robot daily income is 100 USD**

A gets B's commission income:  $100 * 12\% = 12$  USD  
 A gets C's commission income:  $100 * 6\% = 6$  USD  
 A gets D's commission income:  $100 * 3\% = 3$  USD

Note: Any commission income obtained by the upper-level agent has nothing to do with the income of the lower-level individuals, and will not affect the personal income of each lower-level agent. The agency commission income is a commission reward provided by the Bossa platform!

## Welcome to Bossa Smart Finance

- 1- Building a Quantitative Career with Bossa

# /04 Bossa Technology-Future

## The two original intentions of Bossa

✓ Adhere to the value orientation of "success on the right track"

Comply with laws and regulations, manage complaints, keep in mind the original intention of creating excellent quantitative trading tools, actively and responsibly play, update, interact, and build a new reference for digital currency quantification

✓ Build a long-term quantitative ecology of mutual assistance and win-win results

Build a centralized community with Bossa users around the world, allowing them to enjoy the quantitative dividends of the digital currency era and understand the value of life.

Cryptocurrency has endless room for growth, bossa has infinite possibilities, welcome to join bossa, let us step into the digital age together

# Summarize

Why can't ordinary people make money?

- lack of experience
- lack of resources
- lack of opportunity
- Insufficient funds
- investment failure
- institutional failure

90% of digital currency investment losers:

He likes to chase ups and downs, has an impatient personality, gets rich overnight, trades frequently, follows the market development, increases leverage, makes quick money, adjusts positions frequently, pays attention to the news, listens to authority figures, has no trading logic of his own, and blindly believes in technical indicators. life is chaotic, like negative energy

10% of digital currency investments are successful:

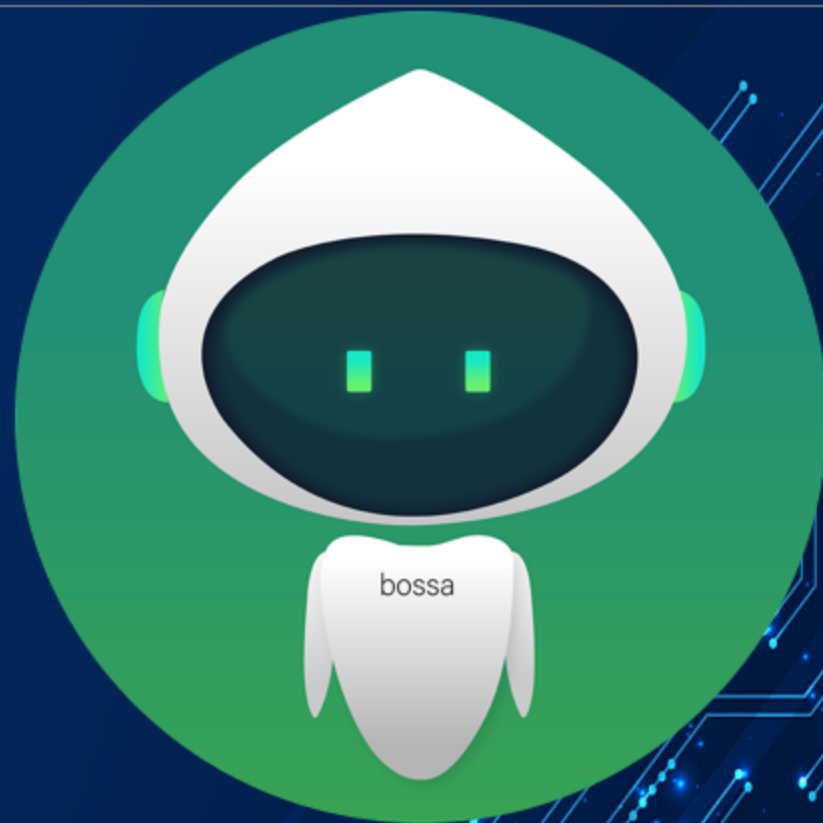

Align information with action, leverage quantitative tools and move away from subjective tactics.

Have judgment, understand trends, value investment, robot quantification, fixed investment, timely investment value compound interest, pay attention to the investment value of digital currency, patience, long-term, serious life, full of positive vitality.

Thank you for your interest in:

Bringing Financial Management  
Back to Life, Bossa will guide you  
in measuring new trends in  
entrepreneurship!
